GR Post 29 & 30 T1S R2E

We dug a pit East & West of Rd & in Range of Fe West Fe to West. Pit extended 4' N & S of Fe Range & from Center of Rd E 6'. We dug to native soil & found nothing. At this time a Mr Barber, noticing our digging came & told us that a Mr Butler of Jack. Co. Rd. Comm. accompanied by 3 men, dug a pit to native soil and extending 12' N & S of the Fe Range. This thorough search rewarded them nothing. This was also substantiated by Mr. Henry McKoncamp.
