

Dowagiac Creek Kelsey Lake Road

Fish Species

Brown Trout

Species Description

Brown trout mostly from 8-12 inches in length with an occasional fish larger than 20 inches. Sub-legal fish are abundant soon after stocking in the spring. There is a little bit of natural reproduction, but the fishery primarily is sustained by annual stocking.

Geographic Coordinates

Lat:41.968697 / Long:-86.011654

Noteworthy

Stream width is variable but generally is from 25 to 30 feet. Access to this site is through the road right-of-way, so please be respectful of the private property along this section of Dowagiac Creek.

Fishing Regulations

Dowagiac Creek is a designated Type 2 trout stream from McKenzie Road upstream from this site to downstream at Hwy M-62 in LaGrange. Please refer to the Inland Streams Trout and Salmon Regulations in the current Michigan Fishing Guide.

Directions to Site

Parking available roadside where Kelsey Lake Road crosses Dowagiac Creek.
