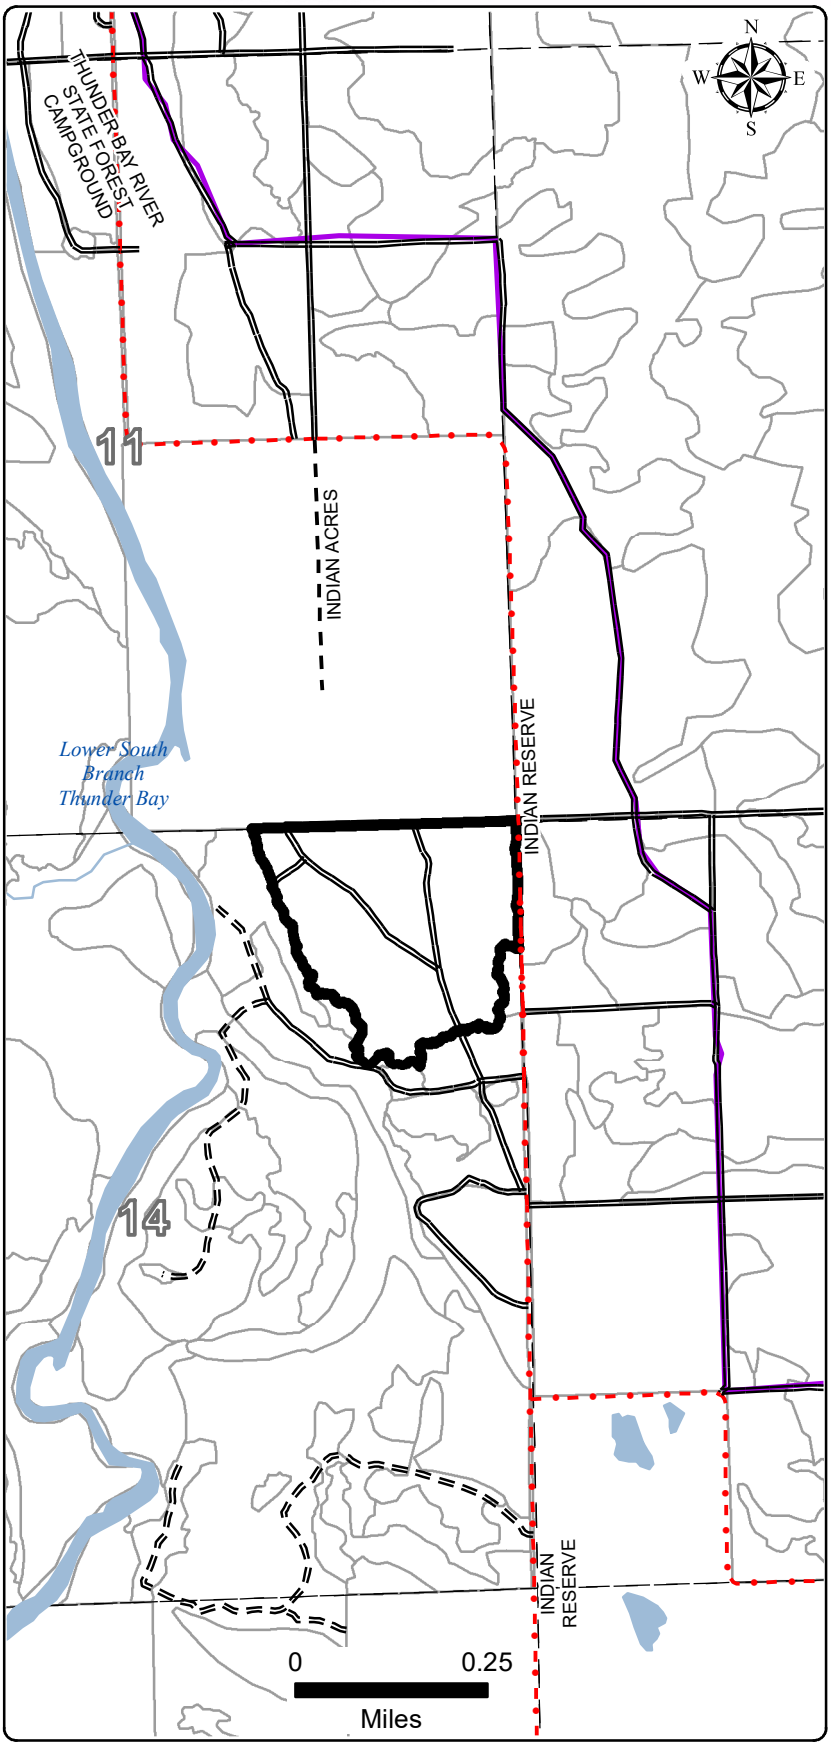
C54-1168

County	Town	Range	Subdivision	YOE	Compartment(s)	Stand(s)
Alpena	30N	07E	Section 14: N2, SENE	2020	88	42



Cover Type Objective:	PLANTED RP	Acres: **50**

Approved Methods:

Plant to red pine. Apply herbicide, roller chop, trench, and monitor as needed.

Treatment Number(s):	54088042
Timber Sale Number:	54-019-20-01
Sale Admin Staff:	D. Parris
Contract TCR Date:	11/16/2021

Comments:

Tops were chipped. Roller chopping should not be necessary. There are 2 residents immediately to the north that should be made aware of any herbicide application. Do not trench or plant through forest roads.

Proofing Comments

Recreation:	No Rec trails within 'treatment
Water:	LSBTBR 430 ft. at closest point to the west

HAL:

To north out of treatment area

MNFI:

Flutedshell mussel last observed in the Lower South Branch Thunder Bay River 1932 (US Status: No Status/Not Listed; State Status: SC - Special Concern (rare or uncertain; not legally protected)

Other Comments:

This site is readily accessible off of Indian Reserve Road. The Lower South Branch of the Thunder Bay River is 430 ft to the west at the closest point. This stand had 3 pockets of oak wilt pre-harvest. One of those pockets saw treatment a year prior to the rest of this treatment.
