Rec: Dual Snowmobile Trail/ORV Route
Water: None
HAL: None
MNFI: W/in large historic polygons for rare reptile, insect & mammal species, but no specific hits within the treatment area
Reviewed and edited Jan 2, 2023 JC

ACTIVITY TRACKING	

Covertypes Objective: PLANTED RP	Acres: 78
Approved Methods: Trench & plant RP at standard spacing. Plant through all skid trails associated with the harvest. Additional treatments may include herbicide and roller chopping.	
Timbersale number: 72-035-17	
Sale admin staff: McClarren	
Harvesting completed by: Summer 2022	
Contract TCR date: 11/28/22	
Comments: Stand 15 was originally two covertypes that were merged following harvest: 16 acres of declining oak and the rest was jack pine with oak. Do not plant the adjacent harvested stands that have natural regen objectives. Have forester flag in line before prep if needed. Protect the adjacent maintained wildlife opening.
