Location: <b>GNA - Huron-Manitsee National Forest - Mio Ranger District</b>					Proposal: <b>G72-922</b>	
County: Oscoda	T26N	R4E	Sec. 16: SWSW, 17: SW,NWSE,S1/2SE, 20: NW,NE,NESW, 21: NW	YOE: 2020	Comp: 708	Stands: 2, 15, 43

PROOFING COMMENTS
Rec: Shore to Shore Trail present within treatment area
Water: none w/in 500 ft
HAL: Per NEPA Documents, none known.
MNFI: Bald Eagle Polygon on north edge of treatment. Per Forest Service NEPA documents, there are no concerns.
Drafted & Reviewed: 1/31/22 TK

ACTIVITY TRACKING	

Covertypes Objective: Planted JP	Acres: <b>388</b>
Approved Methods: Mechanical trenching using Forest Service guidelines.	
Timbersale number: 72-829-20	
Sale admin staff: Kubitskey	
Harvesting completed by: Estimated completion Spring 2022	
Contract TCR date: N/A	
Comments: The proposed trenching area still has an open timber sale contract. Access to the northern most area (north of powerline) will be through a locked Forest Service gate. Contact must be made to ensure gate can be unlocked. Flagging will be needed along the Shore to Shore trail to ensure that it is not trenched through. Current Timber Sale Contract expiration date 12/31/2022.
