

**Forest Treatment Proposal**

Check if applicable: Burning  Prep  Planting  Seeding

Location <b>Grayling Management Unit</b>						Proposal No. <b>C72-886</b>
County <b>Crawford</b>	Township <b>26N</b>	Range <b>01W</b>	Section <b>29: SWSW 32: NW, SWNE</b>	2014 YOE	Comp <b>293</b>	Stand Nos. <b>57 &amp; 75</b>

**Canoe Harbor RP C72-886**

Comments:

72-032-14 was harvested by Dec 2019, TCR 6-30-20. Was not chipped, but slash is mostly pine & evenly distributed. Stand 75 (12 ac.) was a species-removal that (by cut spec) left quite a bit of residual WP-RP. Stand 75 is on a sideslope; part of the low ground at the bottom of a steep incline was left uncut. A 200-ft RMZ was excluded from the harvest along the river. The treatment area is just north of the Canoe Harbor State Forest Campground. Protect the Mason Tract Pathway that crosses through the planting area.

No HAL or MNFI hits within the treatment area.

Treatment Proposed: <b>planted RP</b>		
Cover Type Objective:	Wildlife SPP Objective:	Acres to Treat:
<b>R3</b>	<b>various</b>	<b>99</b>
Recommended Methods/Job Specifications:		
Trench & plant RP. Roller chopping, herbicide, & pre-commercial thinning may also be used to prepare the site and control competing vegetation.
