

### Forest Treatment Proposal

Check if applicable: Burning    Prep    Planting    Seeding

Location <b>Grayling Management Unit</b>						Proposal No. <b>C72-887</b>
County <b>Crawford</b>	Township <b>26N</b>	Range <b>04W</b>	Section <b>3: N1/2N1/2</b>	2016 YOE	Comp <b>204</b>	Stand Nos. <b>1</b>

**C72-887**

Comments:

Timbersale 72-633-16-01 harvested in 2019. Portions are on a south-facing slope. A gravel pit hill climb area had slash placed on it by the chip crew. User-created two-tracks that cut through stand 1 need to be trenched & planted through. Will probably want to rollerchop the sub-merch residual stems. A dual ORV Route & Snowmobile Trail runs along the south edge of the stand and cuts through the west end.

An area of the harvest along the rec trail in the east end must be excluded from cultivation due to the presence of rare plants. Sec 3 HAL hit deemed not significant by OSA.

Treatment Proposed: **planted RP**

Cover Type Objective:	Wildlife SPP Objective:	Acres to Treat:
<b>R3</b>	<b>various</b>	<b>39.2</b>

Recommended Methods/Job Specifications:  
**Trench & plant RP. Herbicide and roller chopping may also be used to prepare the site and control competing vegetation.**
