

Forest Treatment Proposal

Check if applicable: Burning Prep Planting Seeding

Location Grayling Management Unit					Proposal No. W72-881	
County Crawford	Township 28N	Range 01W	Section 5: all & 6: NENE, SENE NESE, SESE		2016 YOE	Comp 270
					Stand Nos. 19, 25	

Lovells KW

Comments:

72-002-16 was harvested in 2017-2019. The northwest portion of the treatment area was harvested first and has well established grass and sedge. All interior temporary haul roads and skid trails were left open and can be planted through. Stand 19 is located in the north central part of the treatment area and has single tree RP retention scattered throughout. Shupac Trail (LP4) is a heavily used snowmobile and ORV route which bisects the treatment area.

Treatment Proposed: KW habitat establishment		
Cover Type Objective:	Wildlife SPP Objective:	Acres to Treat:
J3	KW, various	570
Recommended Methods/Job Specifications:		
Trench & plant JP suitable for KW nesting habitat
