Harvesting completed by: Fall 2023	
Contract TCR date: November 20, 2023	
Comments: Several user-created roads within the FTP area are proposed for closure. If approved by Land Use Order of the Director (LUOD) in February 2024, cultivate through those segments to close them. Those segments are symbolized with cross-hatching on the FTP map. Also close the unmapped illegal ORV trails that spur off of the adjacent private lands. Protect all other mapped roads and driveways. Protect survey corner witness trees that were left within the harvest area.
