ACTIVITY TRACKING	

Covertypes Objective: PLANTED RP	Acres: 7.7
Approved Methods: Hand plant red pine using DNR staff. Focus planting in between areas of good natural pine regen. No trenching, rollerchopping, or herbicide needed.	
Timbersale number: 53-010-20-01	
Sale admin staff: Greg Rekowski	
Harvesting completed by: Fall 2020 - Biewer	
Contract TCR date:	
Comments: Access provided by Road 84, which intersects with Tin Shanty Road to the north. Flat terrain. Tops were not chipped in the previous harvest so there are some localized areas of slash accumulation. Heavy red pine regeneration in skid trails from a harvest 10+ years ago. Hand planting should focus on lower stocked areas in between old skid trails. PRC staff will do the planting.
