SURVEY REQUEST

Requesting Agency FRD			
County CHEBOYGAN	Township 35N	Range 2W	Section(s) 29
Location		Priority	
Survey Purpose Establish timber sale boundaries		Desired Completion Date 2021	
Requirements (specify lines or attach map) The four corners of the NESW 40 in Section 29. See attached map of 40.			
Requested By		Date	
SURVEY PROJECT ESTABLISHMENT			
Assigned Priority		Expected Completion Date	
Assigned To		Supervisor's Signature	
COMPLETION REPORT			
Miles of Boundary Line		Date Completed	
Number of Corners Set		Number of Corners Upgraded	
Maps To		LCRC's To	

SURVEY PRIORITY JUSTIFICATION

1. Is litigation involved now or being threatened? Explain:

NO

2. If trespass is on state land, is the survey likely to prevent further trespass and harm, or is it to prove trespass? Explain:

NO

3. Is prevention of access to a significant area of state land involved? Explain:

NO

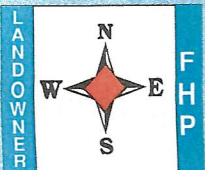

4. Will a survey allow harvest of timber that is being held from the market due to survey problems? What is the value of the proposed sale? Explain (i.e., give the compartment, year of entry, timber condition, etc.):

YES. Value would be approximately \$40,000. Stands 32, 157, and 43 of Compartment 52168 are approximately 80 acres of prescriptions. 2 of the stands are Red Pine thinnings with the third being a clearcut against 3 private boundary lines. YOE is 2021.

5. Are there reasonable alternatives to a survey that will allow at least a partial or temporary solution? (Example: Reduce size of the sale, agreement with or notification of adjacent landowner until proper survey can be done, establish line yourself, etc.) Explain:

Survey corner establishment now would be best for current and future harvest.

SURVEY PRIORITY JUSTIFICATION

1. Is litigation involved now or being threatened? Explain:

No

2. If trespass is on state land, is the survey likely to prevent further trespass and harm, or is it to prove trespass? Explain:

NA

3. Is prevention of access to a significant area of state land involved? Explain:

No

4. Will a survey allow harvest of timber that is being held from the market due to survey problems? What is the value of the proposed sale? Explain (i.e., give the compartment, year of entry, timber condition, etc.):

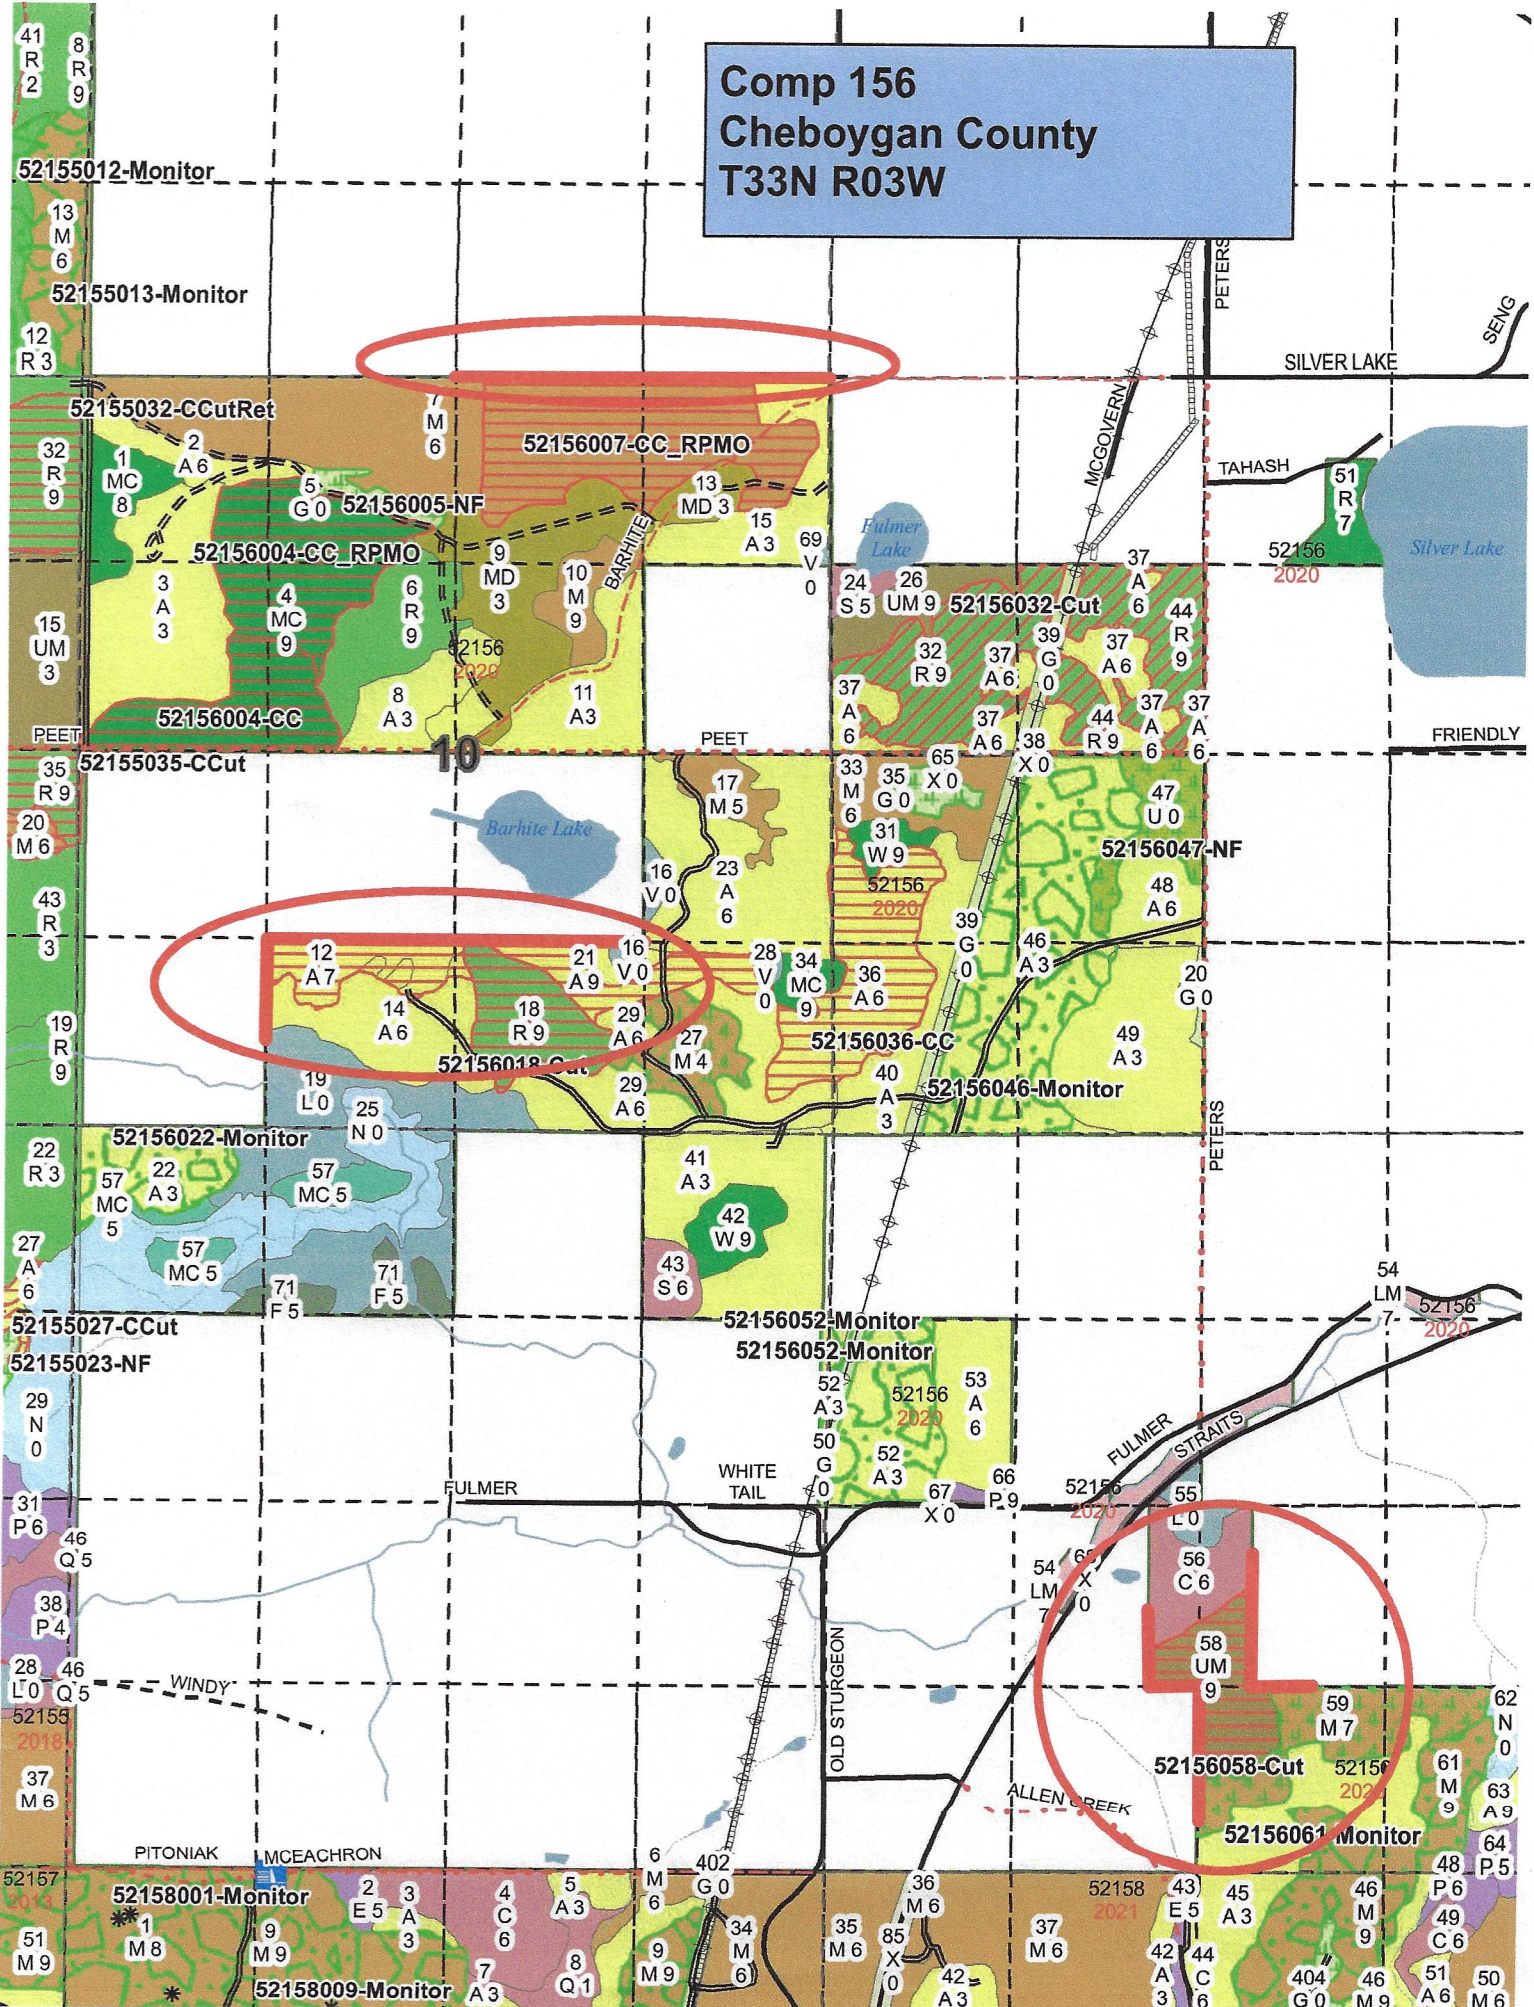

Yes, a survey is required to get timber on the market and prevent possible trespass when running lines.

5. Are there reasonable alternatives to a survey that will allow at least a partial or temporary solution? (Example: Reduce size of the sale, agreement with or notification of adjacent landowner until proper survey can be done, establish line yourself, etc.) Explain:

No

No

4. Will a survey allow harvest of timber that is being held from the market due to survey problems? What is the value of the proposed sale? Explain (i.e., give the compartment, year of entry, timber condition, etc.):

Yes, a survey is required to get timber on the market and prevent possible trespass when running lines. The big red pine stand bordering private property may be planted to Red Pine. A survey will ensure we can fully utilize (re-plant) the harvest areas.

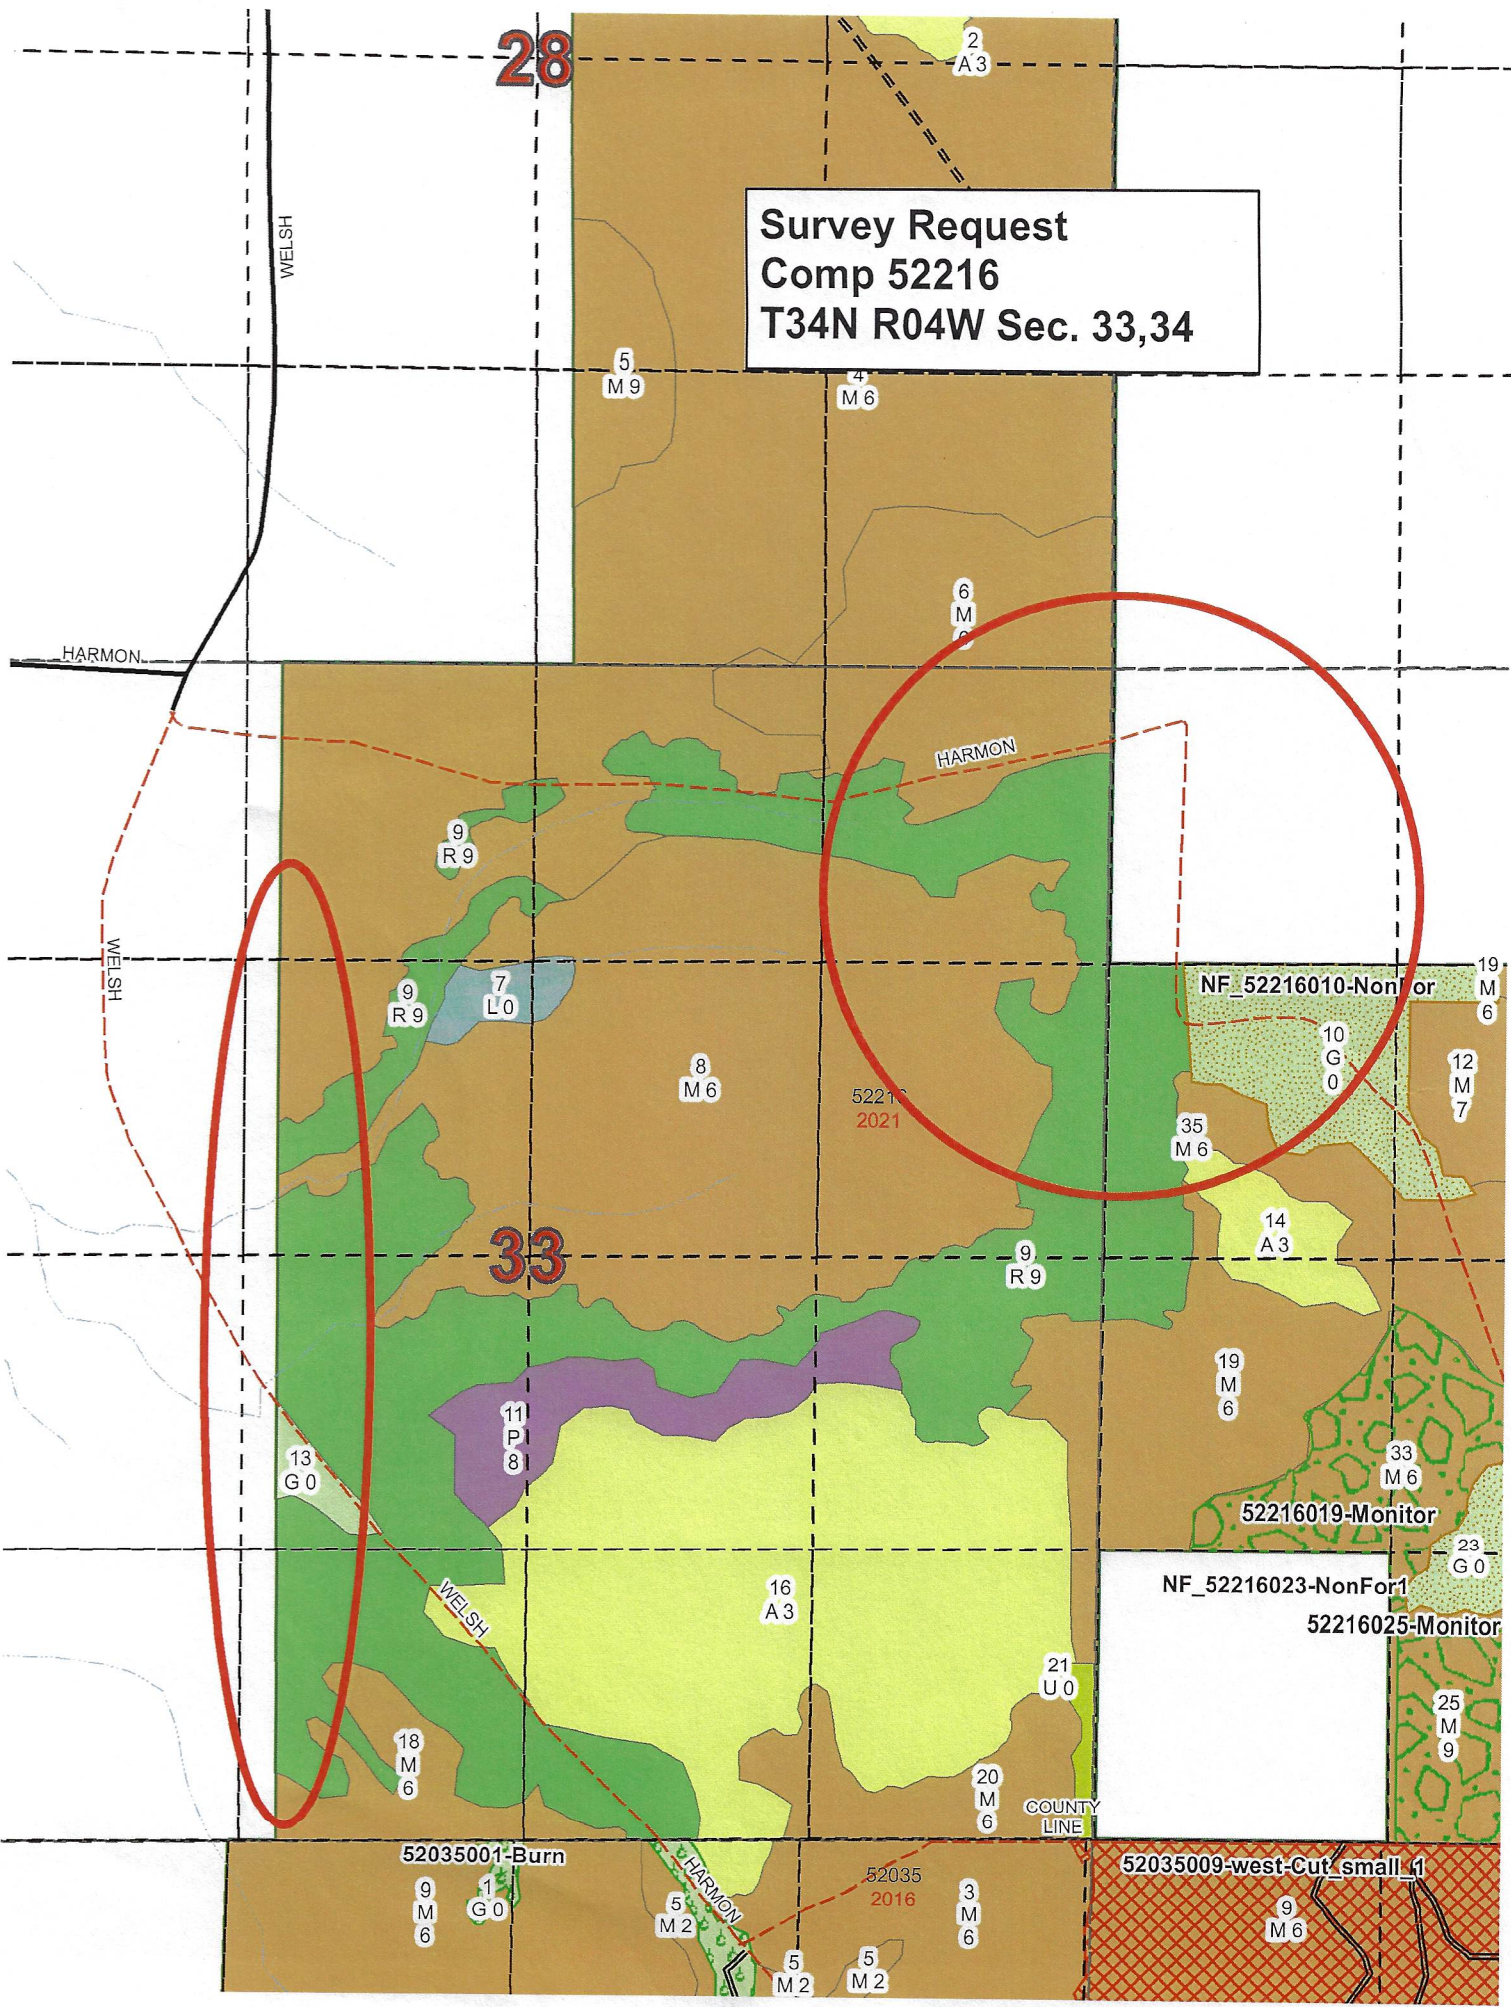

5. Are there reasonable alternatives to a survey that will allow at least a partial or temporary solution? (Example: Reduce size of the sale, agreement with or notification of adjacent landowner until proper survey can be done, establish line yourself, etc.) Explain:

No
