4 - Transportation

4.1 - Construction

4.1.8 - Road work (1) (8/07)

The following road work is required: The Small Creek Road needs to be opened up and widened and rendered passable to two wheel drive vehicles. During the pre-sale meeting we will review all road work that needs to be done. The contractor needs to purchase and install two new corrugated steel culverts. One culvert needs to be 18" X 24' and the other one needs to be 24" X 24', the approximate locations for each are shown on the timber sale map. The 24 inch culvert will be replacing an existing culvert that has been crushed.

A total of 160 yards of gravel will need to be hauled and spread by the contractor. 20 to 30 yards of gravel will need to be placed over and on the approaches of the 18" culvert. 80 yards of gravel will need to be placed over and on the approaches of the 24" culvert. An additional 30 to 40 yards will need to be placed over the culvert and the approaches near the sales west

line.

The contractor might also need to purchase and install an extension for the existing culvert so fill does not enter the creek. A few low areas along the remaining part of the road will need some gravel as well, so this is where the additional gravel will be placed. The gravel is available from a state pit that is within a mile of the sale area. All road work must be completed prior to any harvesting activities taking place. 5.2.32 - Decking/landing restoration (9/10)

All decking and landing areas must have the surface area restored to a condition equal to or better than before. This is to insure the proper regeneration of the stand.

5.4 - Soil Protection

The Unit Manager or his/her representative may restrict hauling and/or skidding if ruts exceed the specified depth. With the Unit Manager or his/her representative's approval, the Purchaser may return to the area when the risk of rutting has decreased.

Sale Specific Conditions & Requirements

Sale Name: Brandts Lake Aspen Sale Number: 33-025-11-01

1 - Sale Area

1.2 - Boundaries

1.2.1 - Painted boundaries (12/08)

The sale boundary and payment unit boundaries are marked and identified by blue, red and yellow paint. Exterior sale boundary lines against private property are marked with blue paint. Exterior sale boundary lines against state are marked with red paint. Interior payment unit boundaries are marked with yellow paint. Yellow painted trees designating an interior payment unit boundary are only to be cut when all surrounding payment units have been paid for.

2 - Timber Specifications

2.1 - Included Timber

2.1.1 - Clearcut unit(s) with unmerchantable trees (4/09)

Within Payment Unit(s) 1 to 4, cut all trees that are three (3) inches or more in diameter measured at a point four and one-half (4-1/2) feet above ground level regardless of merchantability, except as follows: In Payment Units 1, 2, and 3 do not cut cedar, oak, and trees marked with green paint. In Payment Unit 4 do not cut red and white pine greater than 14 inches at DBH. In addition, all dead standing timber should be cut and removed, except leave two to three dead snags per acre.

2.1.11 - Description of timber note (2/04)

Note that the spruce budworm has been affecting the spruce and balsam fir for a decade in the sale area. So there is an abundance of dead trees along with a large amount of trees with very few living branches. All trees with any living branches were cruised along with any recently dead trees that are sound enough to market as pulpwood.

2.2 - Utilization

2.2.2 - Chipping required (1/11)

All units must be chip harvested to facilitate aspen regeneration and lower the potential for a wildland fire. The purchaser has the option to produce sawlogs or pulpwood bolts, but the remaining portion of the trees must be chipped and hauled. The requirement to retain approximately 1/6 to 1/3 of tree tops and limbs less than four inches in diameter does not apply (G.C.& R. 2.2). This is because of the quantity of dead material and fire hazard.

3 - Payments

3.3 - Pre-measured Sales

3.3.4 - Dividing payment units (12/08)

Payment unit(s) with a value greater than \$14,000 may be divided at the request of the purchaser and upon approval of the Unit Manager. Dividing payment units is a contract modification which requires a Timber Sale Contract Supplement.
