To promote aspen regeneration, harvesting is limited to September 1st through March 31st. Any post harvest operations, such as chipping, must be completed before sprouting of regeneration occurs. If it is anticipated that chipping will be delayed, then tops shall be carried to one central location or left unchipped. The Unit Manager or his/her representative may cease such operations if sprouting occurs before the operation is complete.

5.2.4.3 - Dead and down creation, dead trees (6/07)
