OFESSION

A. Description of original monument and accessories and/or subsequent restoration:

G-5; Section Corner common to Sections 9, 10, 15, and 16, T51N, R33W;

Originally established during U.S. Survey conducted by Harvey Mellen, D.S. in 1845 and monumented with a hemlock post witnessed by a

Hemlock

S43°W

16 lks.

and a

Hemlock

30

N45°E

32 lks.

During the course of a survey conducted by Stephen Douglas of the Bureau of Land Management from 10 May 1984 to 10 November 1984 and approved 23 September 1985, this corner was found to be

"monumented with the fragmentary remains of a decayed hemlock post, located 6 ins. below the surface, at the bottom of a hole, 4½ ins. diam., which tapers to a well defined point, from which a decayed hemlock stump, 36 ins. diam., bears S.43°W., 16 lks. dist., with no visible mass, agreeing with the record position of an original with no visible mks., agreeing with the record position of an original hemlock bearing tree.

The BLM set a 5/8" x 48" aluminum pipe with cap and noted the following new bearing trees:

Spruce 18 N48°E 46 lks. (30.36')
Presently alive and 18" in diameter having a partially healed lower blaze with scribing visible. Set a 7" spike on the S/side.
Measured N47°E 30.36'

White Birch 10 S39°E

57 lks. (37.62')

Presently alive and 11" in diameter with scribing visible in bark. Set a 7" spike on the SW/side.

Measured

S39°E

37.62'

S08°W White Birch 11 201/2 lks. (13.53')

Presently alive and 13" in diameter with scribing visible in bark. Set a 7" spike on the

SE/side.

Measured

S05°W

13.53'

White Birch N63°W 21/2 lks. (1.65') 11

Presently alive and 13" in diameter with scribing visible in bark. Set a 7" spike on the

S/side.

Measured

N66°W

1.65

To each of the above BLM new bearing trees, I added an upper blaze. This blaze and a band around the tree at this blaze were painted red.
