N19°E 31 links

Elm 16 N87°W 16 links

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

This corner is being re-established as part of the Chippewa County Remonumentation Program.

Found no evidence of the original corner. Found remains of rotted post, 12" pipe and a newer concrete monument. All three are called for in a Harry Goodwin survey L.S. 5434, dated October 1976. Goodwin set the concrete monument. This evidence is significantly out of position based on other monumentation and GIO calls in the area. Distance from the Southwest corner of Section 36 to the South & corner of Section 36 is 2650' today which was also noted by Kimberly-Clark in 1963 (GLO is 2640). Both of these corners can be traced back to original evidence. If you extend this line East 2640' (GLO is 2640) and establish the Township Corner, the found Goodwin corner is 229'± West and 23'± South. (Continued on back)

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner: (M-13) Corner is a 3/4" x 8' rod with "Chippewa County" stamped aluminum cap. Area is heavy, open marsh with standing water.

Witnesses:
