DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR RESTORED.

This corner was established at the intersection of the true 1/4 lines by Forestry Division survey crew while making a survey of Section 2. A square post is about 73' north and 5' west of our corner but can find no evidence on th boundary of this section to support this location. This post is nearly correct for longitude, but appears to have been set without benefit of a complete survey to determine its correct latitudinal position.

Corner was set and witnessed June 3, 1960.
