This corner was found by Forestry Division survey crew while making a partial retracement of this township. Found 1 1/2" angle iron in place in center of roads N-S-E-W, which appears to have been accepted as the corner by adjoining occupation. Government corner tree probably removed in construction. Considered as best available evidence of the proper position for this corner, and was accepted in this survey.

Corner was witnessed August 11, 1959.
