- Description of original monument and accessories and/or subsequent restoration:
  - Original survey by Wells Burt, D.S., in 1851. He set a wooden post from which: Cedar 18" S35"W 4 links and a 4" hemlock - S78 E - 5 links.
  - 1969 MDOT Highway plans shows approximate corner in centerline of old road.
- B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

I found a yellow tag on an old wooden post east of the centerline of the old road opposite the corner location. No evidence of the original corner position exists. Measurements north and south to existing corners check reasonably well with the centerline position for the 1/4 corner. I set the corner in the centerline of the road opposite the wooden post which checks with a distance split but not on line.

(See sketch on Back)

REPARSENTATIVE

C. Description of monument for comer and accessories established to perpetuate locating the position of the corner:

I set a 2 1/2" diameter x 36" long aluminum pipe monument with a 3 1/4" diameter aluminum cap flush with the old road. The cap is stamped: T45N, R39W, 1/4 cor., S-15, S-16, 1996, RLS 28410, from which I established the following bearing trees and/or reference objects:

8" spruce - S81\*E - 22.14 feet 16" split cedar - N33\*E - 35.92 feet 12" spruce - S25'W - 57.31 feet Steel sign rail - Due West - 6.67 feet Old post with sigh - Due East - 17.80 feet

Signed by 28410 Surveyor's Michigan License No.
