A.	Description of original	al monument and accessories a	and/or subsequent restoration:	~	

B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

No original evidence found.

No monument found at corner position, however, this position set at fence and road intersection matches with road plans and checks with natural feature ties to the west. Chicago and Northwestern Railroad plans show the corner at this position from 1920's. The corner position was used in a 1990 survey for Great Lakes Gas Company in the subdivision of Section 4. No original evidence of the corner remains today due to road construction. I, therefore, relied on the fences, road and R.R. plans to reestablish the corner.

Original survey by William A. Burt, U.S.D.S., on September 9, 1847. Set cedar post from which 8" Y. birch bears N60°E, 50 links and a 14" hemlock bears N46°W, 23 links.

PEER GROUP APPROVED

Reclard L. Drain 4/6/95

C. Description of monument for corner and accessories established to perpetuate locating the position of the corner:

Set a 3/4" x 24" rebar with 3 1/2" aluminum cap stamped: County Remonumentation; T48N, R46W; S-33; T47N, R46W; S-4; 1993; RLS 28410. Established the following bearing trees and/or reference objects:

12" R. maple - N30°E - 92.65 feet P. Pole #40 - S56°W - 61.17 feet 6" ash - N72°W - 55.19 feet Steel sign post - due east - 16.90 feet

Corner is located 22.5 feet east of the curved center line of County Road #513.

Signed by Course No. 28410
