D.C. Crawford former Ionia County Surveyor performed a sectional survey of Section 33 and 34 of T7N-R5W April 18 & 19 of 1883, which is found in Volume 1 page 302 of the Ionia County Surveyors Records. Crawford shows no witnesses or does not state what he set. Crawford has marginal witness notes for E-11 found in the County Surveyors copy of the G.L.O. notes (page 115). He states 1891, 8" Burr Oak N 40° W 64 1/2 links and 3" Sugar S 53° E 68 1/4 links. The Ionia County Road Commission has witnesses to this corner on their index maps as follows: 1959; 2" Vitrified clay cylinder and iron; 6" Cedar Northeast 22.95', power pole Northeast 119.10', 18" Maple Southeast 45.40' (Crawford's witness of 1891).

This corner was recorded by Professional Surveyor, James Porter no. 19008 found in Ionia County Public Act 74 recordation file Liber 1 page 181, July 16, 1976. Porter states that he found a boat spike alongside a vitrified clay monument as found by the Ionia County Road Commission and used by Consumers Power Company in a survey dated 11-19-42. Porter took 3 witnesses.
