

MICHIGAN DEPARTMENT OF NATURAL RESOURCES

INTEROFFICE COMMUNICATION

Crystal Falls, Michigan
November 24, 1970

TO: Lynn B. Mohr, Staff Forester, Lansing
FROM: Arthur O. Enger, District Surveyor
SUBJECT: Land Corner Record, Sec. 5, T45N, R32W

Sorry for the delay, but your memo of November 4, 1970 was misrouted and I did not get it until November 24.

The subject corner record is correctly located. While our main project work was performed in T45N, R32W, I came upon this unrecorded corner in R32W and made a record of it.

It is our usual practice to monument and record any and all corners we find where original evidence is present. They may have no relationship to current projects but could be important at some future time.

Arthur O. Enger
