SUBJECT: Land Corner Records

I am recording your corner records submitted with cover letter dated October 29, 1970. I find one location that has me puzzled. It is a one-quarter corner between Sections 5 and 32, T45-46N, R32W. Could this corner possibly be in R31W along with the other corners you submitted. It was done about the same time period as the other corners in R31W. Also, it is the only corner along the northern edge of T45N, R32W, that is relocated.

I am holding the land corner record in question until I hear from you. I am also enclosing a copy of this for your reference.

Thanks.
