SW corner Section 36 Howell Twp. Liv. Co. MI K-13:

Oldest known witness is 1880 by M.W. Bullock but witness tree is gone today. Next oldest known witness is 1960 by L.W. Munsell and the corner lines with existing occupation to the North. In 1965 MDOT replaced found RR spike with a 3/4" iron pipe in a mon. box and measured East 107.97 feet to the NE corner Section 2.T2N-R4E. In 1960 L.W. Munsell measured 108.19 feet between section corners. At this time I've measured 108.03 feet between the same corners; Washtenaw Engineering has tied to the same corner in 1973. mon. box is set in asphalt near the centerline of Mason Rd. with trees obstructing the Southwest and Northwest but fairly clear Northeast and Southeast.
