Neil E. Hill  In Hed survey of 19  Description of corner evidence from a decessories and/or subsequent recorded on this certificate.  Description of corner evidence found and/or method applied in restoring or reestablishing corner:  1978: The USDA Forest Service found no original or any subsequent corner restoration.  Description of corner evidence found and/or method applied in restoring or reestablishing corner:  1978: The USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Established the following references of which the USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Established the following references of which the USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Established the following references of which the Bearing Trees are eblazed, scribed, painted, and tagged:  Utility pole EKS-29-16 MYSE S218 41.2 feet 5" Maple NS18 93.7 feet 18" Relaced with 5/8" X 38" rod with 3" aluminua cap. Established the following references of which the Bearing Trees are blazed, scribed, painted, and tagged:  Utility pole RKS-29-16 MYSE S218 41.2 feet 5" Maple NS18 93.7 feet forest Records and with 5/8" X 38" rod with 3" aluminua cap. Established the following references of which the Bearing Trees are blazed, scribed, painted, and tagged:  Utility pole RKS-29-16 MYSE S218 41.2 feet 5" Maple NS18 93.7 feet forest Road 33.9 to the East, centerline of bituminous road West, West edge of grave. road North.  Upon review, the location and witnesses for the corner as recorded in Liber D-612: (Corner Records), are sufficient to perpetuate the corner location.						j	5 - 5	<del>i</del>	<u>'</u>
Discription of corner evidence found and/or method applied in restoring or reestabilishing corner position was re-estabilished by survey at the point of intersection of centerlines where County Road 335 turns North and West.  1998: The USDA Forest Service found no original or any subsequent corner evidence. Corner position was re-estabilished by survey at the point of intersection of centerlines white the Bearing Trees are blazed, scribed, painted, and tagged:  1998: The USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Estabilished the following references of which the Bearing Trees are blazed, scribed, painted, and tagged:  1998: The USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Estabilished the following references of which the Bearing Trees are blazed, scribed, painted, and tagged:  1998: The USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Estabilished the following references of which the Bearing Trees are blazed, scribed, painted, and tagged:  1998: Relaced with 5/8" X 38" rod with 3" aluminum cap. Established to prove with the Corner position and reverse and the search of the Corner and accessories established to perpetuate locating the position of the corner restoration.	וז כד כי זו			0.1.1		, ,			
The expectation of comer evidence found and/or method apolled in restoring or reeslablishing corner:  1998: The USDA Forest Service found no original or any subsequent corner evidence. Corner position of comer evidence found and/or method apolled in restoring or reeslablishing corner:  1998: The USDA Forest Service found no original or any subsequent corner evidence. Corner position of comer evidence found and/or method apolled in restoring or reeslablishing corner:  1998: The USDA Forest Service found no original or any subsequent corner evidence. Corner position of comer evidence found and/or method apolled in restoring or reeslablishing corner:  1998: The USDA Forest Service found no original or any subsequent corner evidence. Corner position was re-established by survey at the point of intersection of centerlines where County Road 533 turns North and West.  1998: The USDA Forest Service set a 1/2" by 18" long rebar, capped with a plastic I.D. cap. Top of rebar is flush with road surface. Established the following references of which the Bearing Trees are blazed, scribed, painted, and tagged:  Utility pole EK3-295-16 MM9S 52.3 feet  10" Naple S48E 188.6 feet  10" rerod East 13.0 feet  Forest Road 532P to the East, centerline of bituninous road West, West edge of grave:  100 review, the location and witnesses for the corner as recorded in Liber D-812:  100 review, the location and witnesses for the corner as recorded in Liber D-812:  100 review, the location and witnesses for the corner as recorded in Liber D-812:  100 review, the location and witnesses for the corner as recorded in Liber D-812:  100 review, the location and witnesses for the corner as recorded in Liber D-812:  100 review, the location and witnesses for the corner as recorded in Liber D-812:  100 review of Michigan License No.	Nell E.
