LEEMON SURVEYOR NO SURVEYOR NO SURVEYOR NO SURVEYOR	comer of section 20 as being at the midpoint of the section 20 as being at the midpoint of the section 21/4, and from that are based several parcels in the SW 1980 survey by Charles F. Lewandoski #7867 Fd. a 3 33.80 ft., (5) Oak 12 S25E 39.11 ft., (6) Oak 16 N82E 44 1992 survey by George J, Mitchell #19618 Found a 1/6 (8) Oak 6 SW 33.32 ft., W1/16 common 17 and 20 S87-	entioned, however he show on line. He then shows on I 1/4 of section 20., NE 20 I '8" Iron bar, (3) Tw. Oak 8 I 3.0 ft. See Liber 1314 Page 2" square bar, (5) Oak 8 SE 41-00E 1272.55 ft.,	vs a computed position sheet a computation sheet a S87-26-33E 5090.1 N40W 22.73 ft., (4) Core 908 of Corner Certific 39.03 ft., (7) Oak 10	on for the N1/4 It a computed I 7 ft, Dak: 10 S40W licetes, D NW 41.30 ft.,
and in the centerline of the road to the north. Witnesses 1 and 2 are gone. Witness 4, 5, 7 and 8 are in good condition. Witnesses 3 & 6 are stumps. Liber 1671 Page 314 thru 317 by Mitchell shows the work he did for "Round Lake". Although the north line of section 20 is 185 feet short of GLO record I do not believe this corner is too far east. I measured the north line of 19 and found it to be 37 feet short of GLO rether than 185 long as one might suspect. The GLO calls do not aid in recovery of this corner. I could find no conflicting information that would lead to another location. Long established roads originate from this position. This monument is accepted as the best available evidence of the position of the original corner. C. Description of monument for corner and accessories established to perpetuate locating the position of the corner Section corner common to sections 17, 13, 19 and 20 of T12N R15W Monu. CORNER NUMBERING CODE DIAGRAMS FOR IDENTIFYING LAND CORNER RECORDATIONS AND INDEXING

FOR PUBLIC LAND SURVEY CORNERS IN THE T. 12, R. 15 (MENTIONED OVER)

Apply letter prefix for corner points encircled above for identifying corner recordation numbers over.

FOR PROPERTY CONTROLLING AND MISC.
PROPERTY CORNERS WITHIN THE SECTION
(MENTIONED OVER AND EXCLUDE LOT CORNER)

- 1. Above coded numbers are positioned on 1/16 fractional lines of the section.
- 2. Township corner code numbers shall be applied to corners of above typical section not numbered.
- 3. Miscellaneous property corners within a section, located at points other than numbered above, shall be referenced to at least two of above corner code numbers.
- 4. Private claim corners to be tied to rectangular land corners if possible sketch required below.
