DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR RESTORED.

This corner was found by Forestry Division Survey crew. After considerable investigation, and questioning of local residents, I felt that this was no doubt the location of the original corner. It had been perpetuated by an unknown Surveyor, who used a 6" pipe for the corner. This location checked, both ways, as to direction and distance.

Corner was placed and witnessed April 11, 1951.
