CIRCLE CORNER REGISTERED

DESCRIPTION IN DETAIL AS TO HOW CORNER WAS LOCATED AND IDENTIFIED OR RESTORED.

This corner was reestablished during a retracement survey in this area. Found Dept. Mon. as set at position of Schaaf corner, dated 1940. Schaaf attempted to set the corner by proportionate measurement between Section Corners to E & W but was too far West by some 200 ft. We do agree closely with his measurement of the E line of Sec. 5. Our position for the 1/4 corner is based on a survey of Sec. 5 (24-6) dated 1900, which is on record in old Co. Surveyors book at the Missaukee Co. Mi. Comm. Found both witnesses: W.P.S. 22, N 80 E 14.5' and W.P.S. 18, N 40 W, 29.7'. The 1/4 corner by these witnesses fits the split of the mile within less than 4' and also fits the U.S. tie (1899) survey East to small pond of 2 chains.
