There is one LCRC recorded at Oakland County; Kolehouse 1997, and one unrecorded LCRC; Raymond J. Donnelly 1987.

Recovered an Oakland County Remonumentation brass capped iron #25854 in monument box. Said monument box did not agree with and could not be validated with monumentation found in Adams Woods Subdivision No. 1, Chapel Hill Estates No. 1 and Oakland County Condominium Subdivision Plan No. 155. Using monumentation found in the aforementioned documents, we re-established M-1, cored the re-established location and recovered an existing monument box below the pavement. The recovered monument box and iron agrees with the recovered monumentation, therefore, we removed the monument box set by Randy Kolehouse, License #25854, placed an extended monument box on top of the old monument box that was recovered, and witnessed its location. We also recovered a 1/2" iron in a monument box 1.70' north as Randy Kolehouse stated in the LCRC L. 17277 P. 611. We could not substantiate any monumentation in the area to agree with this monument box. It still exists as of this date but has been paved over. It's location is N 21°45'37"W 1.80' of the new monument box which we have placed.

In researching data within Troy Township, Raymond J. Donnelly recorded Tall Oaks Subdivision in Section 6 of said township. Donnelly measures 3205.63' between A-1 and A-2 of Troy Township. Measuring between the uncovered monument box which we call M-1 and A-2 of Troy Township, we found it to be a distance of 3205.56'. Therefore Raymond J. Donnelly, in 1987, used the monument box we uncovered and call M-1.

On discussions with the Oakland County Peer Group it was the consensus to remove the monument box 1.80 NW of M-1.
