MARCH 25, 1998

Corner Code: C-1

DOSSIER FOR: THE NORTHWEST CORNER OF SECTION 5, SPRINGFIELD TOWNSHIP, T 4 N, R 8 E, OAKLAND COUNTY, MICHIGAN. Prepared under contract with the County of Oakland Under Act 345 of the Public Acts of 1990.

HISTORY:

The boundary of this Township was surveyed by Alex Holmes, D.S. in 1815 and Joseph Wampler, D.S. set the Corners for the subdivision of it in 1823.

SPECIAL NOTES:

This Corner has been accepted and used since before 1972, as evidenced by a recording under Act 74 of the Public Acts of 1970 by John D. Albright, Surveyor, in Liber 6373, Page 858.

COLLATERAL EVIDENCE:

We found an iron pipe with an iron rod inside 0.28 feet North of the Township Line at the North end of a fence. We set a concrete monument with remonumentation cap on the Township Line. This Corner lies at the North end of a fence on a tree row running North and South. There is no evidence of occupation running East or West from this Corner. The Southeast Corner of Section 31 of Groveland Township is 99.27 feet East of this Corner, the GLO calls for 99.00 feet. We measure 0.74 feet less than the recorded distance to the East 1/4 Corner of Section 6 and 5.2 feet less than the GLO.

We searched at least 50 feet in each direction for other stakes and found none that might represent the Corner.

SURVEYOR'S RECOMMENDATIONS:

This corner location is accepted by the Contractor and is generally accepted by Professional Surveyors as the best available evidence of the position of the original Corner. Therefore, I recommend that the Peer Review Group accept this Corner as monumented, with the references as shown on the enclosed form prepared according to Act 74 of the Public Acts of 1970.
