thereby making the corner 4 feet long. Sometimes a solid tile, with a cross in the top was used, and sometimes a 1/2" iron bars were added to the tile. Notes of the work were kept in ledgers, and given to the townships, and 5 of the townships have been recorded in the County records.

This corner has Two LCRC certificates recorded by McClung.

A PA 132 recording by McClung.

The corner is called on 3 different pages in the Sherman Township book. Township Book, with distances to the corner from the East and West.

There is also 1 sheet of private survey record, showing the distance to the corner.
