Rejected as 1/4 corner common to Sections 2 & 11. The fence line to the South, which corner placement was based upon, does not follow the North & South 1/4 line of Section 11, then established, but meanders Southeasterly 668'± to a fence corner that would be 17' East the 1/4 line. Established 1/4 corner common to Sections 2 & 11 by single proportionate measurement, and accepted as a careful and faithful reestablishment of the position of the original corner. C.
