Description of corner evidence found and/or method applied in restoring or reestablishing corner: В.

Standard Corner, Sections 28, 29, 32, & 33, Chapin Township E-11

Found no evidence of the original government accessories. Found road culvert and concrete deck at the position of the corner. Corner apparently destroyed by bridge construction. Re-established the corner at a calculated position on line between F-11 and D-11 using the single proportionate measurement. Corner falls in line with a field occupation to the south. Found no conflicting evidence in the vicinity of this position. We recommend that the calculated position be accepted as the best available evidence of the position of the original government corner and a standard Saginaw County 5/8" re-rod with brass cap placed in a monument box in the approximate center line of Kramer Road.

Description of monument for corner and accessories established to perpetuate locating the position of the corner: C.

Standard Corner, Sections 28, 29, 32, & 33, Chapin Township E-11 Set 5/8" re-rod with standard Saginaw County brass cap stamped "E-11 39096" in concrete box culvert OF MICHIG
