B. Description of corner evidence found and/or method applied in restoring or reestablishing corner:

In August of 1996 LSC computed the location of the corner to be inside a house by using a recorded angle from the "Geddes Ridge Sub." (L21-PG75 W.C.R.) and distance by comparing LSC's measurement from I-11 to I-13 to 1968 measurements and computed the corner's position accordingly (see sketch), set two (2) reference irons and three (1) witnesses for the N'ly reference iron and four (4) for the S'ly reference iron.
